

Important Update: Your Building Management

What's Happening

Beginning **September 1, 2026**, your building will be directly managed by All Island Rentals, the operating name of All Island Equity REIT LP (the building owner) - instead of a third-party property manager.

The same on-site team will remain in place and will be available to assist tenants throughout the transition. We will share additional information about each stage of the property management transition throughout July and August.

What is NOT Changing

- Your on-site team and contact information
- Your tenancy agreement
- Your rent

- The building operations, maintenance, and services

What YOU Need To Do (Important)
